ABSTRACT

The Senior Officer Oral History Program (SOOHP) is sponsored jointly by the U.S. Army War College and the U.S. Army Military History Institute, as an educational service. As of 1992, this program includes over 2,000 hours of taped interviews and 100,000 transcribed pages covering 900 military personalities and special topics. This document is a handlist designed to aid researchers. The handlist is organized by project and its entries contain information such as the name of the interviewee, branch of service, year of interview, pages of transcript, name of interviewer(s), unit type, location of operation, and period of service. Some of the projects listed are topical oral history projects such as The Last Days of Vietnam or Grenada 1983. Other projects have titles such as Division Command Lessons Learned, Operation DESERT STORM, and Company Command in Vietnam (1981-1985). Two appendices are included: Senior Officer Debriefing Reports, and Combat Developments Command Debriefing Reports. (DB)

REPLY TO ATTENTION OF

Office of the Director

Dear Researcher:

The Senior Officer Oral History Program (SOOHP) is sponsored jointly by the U.S. Army War College and the U.S. Army Military History Institute. This program now includes over 2,000 hours of taped interviews and 100,000 transcribed pages covering 900 military personalities and special topics. Other commands, associations, and individuals have donated oral histories to the Institute for use by researchers. This handlist reflects the increasing growth over the years.

To make this handlist more useful to researchers, there are some changes from the last edition. As before, each project generally is coded with respect to its completion and accessibility. The code appears on page iii. Projects in the SOOHP are not generally available for use until all work, including access agreements, is completed. The exception is a project which has come from other sources. Often access agreements do not exist or were not provided to the Institute. Access in these cases generally is regarded as open to bona fide researchers. Work to complete remaining projects continues. Potential users should inquire about the status of projects of interest shown as incomplete prior to coming to the U.S. Army Military History Institute to conduct research.

Tapes and transcripts generally do not circulate via interlibrary loan and are not reproducible, except for short passages from transcripts otherwise open to all researchers. Tapes and transcripts must be used in the Institute's Audio-Visual or Archives Branch. A duplicate copy of transcripts open to all is available at the U.S. Army Center of Military History in Washington, DC.

Send inquiries about the SOOHP to:

Assistant Director for Educational Services
U.S. Army Military History Institute
Carlisle Barracks, PA 17013-5008
Telephone: 717-245-4113 (Autovon: 242-4113)

APPENDIX I

SENIOR OFFICER DEBRIEFING REPORTS

USAMHI holdings of **Senior Officer Debriefing Reports** from the Vietnam War are located on Level E and marked, DA ACSFOR DBSO ___.

ACSFOR had general responsibility for the Senior Officer Debriefing Program begun in 1963, in which high level commanders and other key officers prepared written reports after completing their field assignments. The program was not limited to Vietnam assignments, but the reports produced as a result of the extensive and lengthy US involvement in Southeast Asia obviously predominated. Forwarded by the departing officers to ACSFOR, the reports were reviewed then distributed for action or information as appropriate. The Combat Developments Command and other commands on the distribution list further processed the debriefing reports as applicable.
